

## Product Energy Consumption information :

### ECODESIGN REQUIREMENTS:

#### 1. Energy efficiency requirements for (EU) No 2023/826:

##### 1.1 Test Results :

For model: F-RP02A

Mode	Connection	Power consumption (Watts)	Default timeout	Limits (Watts)
Idle	None	None	None	N/A
Standby	None	None	None	N/A
Another	None	None	None	N/A
Networked standby	1 Gb/s LAN Port, Wi-Fi 2.4 GHz, Wi-Fi 5 GHz	4	20 minutes	8.0
Networked standby	All available connections	4	20 minutes	--
(1) The Freebox Repeater WIFI-7 was placed into "Networked Standby mode" and the device is able to resume a function through a remotely initiated trigger via a network connection
